

ZENITH 48

 **SKYFOLD**®

*Acoustic leader in
vertical retractable walls*

SKYFOLD ZENITH 48

Zenith 48 is the latest revolution in the Skyfold family: an operable wall with excellent acoustic properties that can slide anywhere, even in small spaces.

By combining accordion elements with straight portions, Zenith 48 reduces the clearance required for its movement and allows for the creation of stylish, calm workspaces in the blink of an eye, just about anywhere.

- // **Acoustic soundproofing** of the installed wall exceeds industry standards: STC 48 / RW 47
- // **Made-to-measure dimensions:** up to 48 feet (14,6 m) wide and up to 12 feet (3,6 m) high
- // **Space-saving design:** no visible mechanisms, no floor or wall tracks, and no loss of useful surface space
- // **Automatic, rapid and quiet system,** with simple turnkey activation
- // **Wide range of finish options:** Skyfold standard fabric and vinyl
- // **Excellent price-quality ratio**
